WEST COUNTY HEALTH CENTERS

Comprehensive Healthcare for People Living with HIV/AIDS

ABOUT OUR HIV PROGRAMS

West County Health Centers are dedicated to improving the lives of people affected by HIV and reducing the spread of HIV in our community.

We offer a full range of consultative, diagnostic and treatment options for all stages of HIV infection as well as comprehensive primary care and supportive services.

Since the early days of the HIV/AIDS epidemic, West County Health Centers has been on the frontlines of responding to how this infection has affected our communities, first with a comprehensive HIV program at Russian River Health Center and most recently at Sebastopol Community Health Center.

Our goal is for people living with HIV to have access to health services that will support long, full, healthy lives. All services are offered by highly qualified licensed professionals with extensive HIV training and experience.

SERVICES WE OFFER:

- HIV Primary Care & Specialty Consultation
- Medical and Social Work Case Management
- Medication Adherence Support
- Mental Health Services
- Psychiatric Assessment and Monitoring
- Substance Use Counseling
- Nutrition Consultation
- Dental Care
- AIDS Drug Assistance Program Enrollment
- Health Education & Risk Reduction Counseling
- Support Groups
- Drop-In/Rapid HIV Testing
- Integrative Health Services
- Pre-Exposure Prophylaxis (PrEP)

“ I truly would like to thank all the staff, doctors and everyone in between on managing such an efficient health center. WCHC has demonstrated time and again to be a compassionate environment and will always be my #1 choice. ”

—RRHC PATIENT

YOUR HEALTH HOME

West County Health Centers offers an ongoing, personal relationship with your health care provider and your Care Team.

We focus on the whole person and every interaction is an opportunity to empower patients in their own care. We strive to understand and respect everyone's unique needs, culture, values and preferences.

Our clinics utilize a Care Team Model. Under the direction of your primary care physician, an interdisciplinary team will plan your care in collaboration with you. Your case managers will coordinate care across specialists, hospitals, and other resources as needed.

We partner with local agencies including Food for Thought, Face to Face and others to benefit our clients and community.
